

MID-RISE LIFT

Engineered to perform... Built to last!

The mid-rise lift is an excellent choice for low ceilings or adding a bay for seasonal increases in business. Provides good working height for tires, brakes and body repairs.

Shown: 6000 MRL
6,000 lbs. capacity

Model 6000MRL

- Full 6,000 lbs. capacity
- Portable, easy to move
- Two hydraulic cylinders
- Fast operation: 20-30 seconds
- Multiple locking positions
- Truck adapters included

Engineering Excellence

Forward's U.S. engineers have over 29 years of combined experience designing automotive lifts for service and repair shops. Forward's philosophy is to own our designs rather than use someone else's off the shelf product.

Product Integrity

21st century design tools allow us to create, control and validate our designs to ensure maximum performance. Forward lifts are thoroughly tested to meet quality and durability standards. All product families are proof load tested to 1½ times rated capacity and rigorously cycle tested.

Specifications	6000MRL
Capacity	6,000 lbs. (2722kg)
Rise	52"
Length	83"
Width	41"
Fully Lowered	5"
Motor	110 volt or 220 volt
Shipping Weight	1,000 lbs. (454kg)
