14,000 lbs. capacity

CR14 Lifts Feature

an improved, advanced hydraulic and mechanical lifting system which is concealed and protected under the runway. This high performance design generates greater durability and a more efficient and dependable lift operation. The CR14 runway lift features an industry-leading rise height of 78-3/4" allowing better technician access for under vehicle service.

High Performance Forward Lifts

are rigorously cycle tested at rated load giving you a proven, quality tested lift you can depend on for years of quality service. Forward engineers' gold certified designs meet the highest industry standards for safety and performance. Secure your investment and your bottom line with these versatile and reliable vehicle service lifts.

Forward 14,000 lbs. capacity drive-on lifts meet the ANSI/ALI ALCTV 2011 standard, including the required third-party validation. Your assurance of certification is the gold ALI/ETL certified label - the highest industry safety and performance standard.
